PERSONAL

I have lived in South Florida since 1968 when I started college. A successful career followed in many trades such as: musician, recording engineer, sound system design and installation contractor along with achieving a degree in Television Engineering. After 12 years with Southeast Audio Services, I started Ray's Sound and Video to provide a personal level of excellence in production for commercials, television shows, and feature films. The latest equipment and over 35 years experience assures you a professional and confident job.

Ray Rifice, C.A.S.
Sound Mixer
