PROFILE

This is what I do:
I imagine something needed or wanted, and when I can't find what I'm looking for, I design and create it myself. I tend to see things for their fundamental characteristics rather than their ostensible function. It's these skills and talents, cultivated and refined over the last 25 years as a freelance designer, prop-maker, and photographer I have to offer to any endeavor that aspires to distinction and profit.
