OBJECTIVE

Clay Modeler position that will allow me to demonstrate my transferable design and production skills.

PROFILE

Successfully conducted custom contract art services as an artist for 23 years.

I have successfully sculpted and finished a GTP racing car; carved in 2lb. ridged foam. It was full-scale. Made to mount to specific hard points and contact points for positioning onto the chassis. Complete knowledge and experience in producing molds for production in urethanes and silicone, fiberglass, and gypsum products. Other works were of the Bat plane, and Bat car for Las Vegas Stardust Lounge show. 10 ft scale model of left view 1961 Cadillac and numerous other technical works of art for the motion picture industry, Amusement park, Disney and Warner Bros. stores and Disney float division, and Store display projects. My experience spans the following:

- Architectural pre-cast cement, fiberglass, and composite
- Fireplace mantels
- Clay Sculpture; Chavant #4 and #2 oil base clay and Disney WED 210 and 217 water base / Bronze , Silver, Wax, Wood, Cement, urethane flex and casting resins, Fiberglass and Composite materials
- Painted Murals
- Light fixtures and signage
- Art glass and stain glass
- Custom Mosaics for swimming pools, Walls and floors and interior surfaces
- Fiber optics design settings for Disney floats and custom mosaic swimming pools.

I have done Marketing and contract sales in three major areas; 1) Las Vegas for Hotels and Casino artwork , 2) Motion Picture and Television sculpture and mold-making for productions , 3) Design, fabricate and install artwork and architectural elements for the High End commercial and residential property developers throughout the greater Los Angeles, Palm Springs and Santa Barbara areas.

Tool use proficiency:

- Flex shaft grinders, Dremil tools, Die grinders, routers
- Power tools, cut off saws for wood, steel, plastics
- Casting operations, silicone rubbers, gelatins, plaster and cements, foams, resins and fiberglass, urethanes/ familiar with silver lost wax jewelry
- Mold-making/ silicone and hydrocal, and some sand-casting
- Master carver and sculptor, jeweler
- Riffers, chisels, dental tool use
- All hand tools typical power shop tools and equipment
- light mig and acetylene torch welding and cut off
- Spray paint equipment
- Delivery and installation: Truck driver,
- Current license forklift operator
- Light CNC machining in SFX shop
