***Diverse Skills, a Strong Work Ethic, and an Excellent Attitude*** are some of the assets that I can bring to your production. I have the technical and artistic skills to keep track of the big picture and the communication skills to be comfortable as a leader. I have extensive experience in many facets of the film and television arena. I have worked in production, camera, art, props, grip and electric departments, which I believe gives me the edge over my competition, as I can understand what's going on around d me and anticipate the needs of the production. I am a degreed professional (Radio, Television and Film from the University of North Texas), and have been owner/operator of Art House Productions since 1994. I have worked on over a thousand commercials, hundreds of music videos, over fifty films and a dozen TV shows. No matter what your needs, you can count on me.

***Selected Credits:***
