Profile

I am a Georgia registered Paramedic and a RN. With over 20 years of experience, I have worked the last six years as a movie production medic. There are very few RN/Paramedics available in the movie production business. It is a tremendous benefit for your production to have an on staff RN as your medic with Paramedic training as well. Why settle for basic coverage when you can have higher trained personnel for the same budgeted service. On call Physicians and Ambulance standby available on request. Technical Consultant for your production for Fire Department, EMS, or Hospital scenes.
