PRODUCTION ASSISTANT

DAVE O'HALLORAN

PROFILE

I am wholeheartedly intrigued by every aspect of the production, from pre-production to post, to everything in-between. I approach a 13 hour day on set as a production assistant with the same amount of dedication and energy as I do making my own short films.

- 2 years production experience, working on commercials, features, and television series
- extremely quick learner, often becoming familiar with new concepts with little instruction
- easy-going and friendly, stemming from a decade of customer service experience
- a constant collaborator, just as comfortable working with others as I am going at it alone
