

DANA NICOLE GRIFFIN

Dana Nicole Griffin is a wardrobe stylist/costume designer. She has been working in film and television since 2004.

She brings expertise by putting together the best looks of the past, present and future.

Having arrived in reality television in its infancy she has had to create her own version of the wardrobe department from the ground up. "Early on we really didn't know how to work around all these cameras in our faces, things had to be on point from the start. There were not many second chances".

Thinking on her feet, being focused, innovative and imaginative and of course, having a sense of humor, has given her a high level of confidence and respect for this business.

Dana is very current in all fashion from street to runway to realway.

She brings a dedicated and hardworking team to any project.

She was born and raised in Los Angeles and studied fashion design at Santa Monica City College
