

Over 15 years within the Film & Television industry has given me expertise required to provide Solid and decisive leadership. I present a versatile background that has provided me with insight and hand on experience in time and again I have demonstrated the ability to facilitate change, impact positively on the bottom line and solidify relationships within departments. Right now I am in the second year in the Digital Cinematography program Online at Full Sail University and just finish a 4 month internship at Abelcine, NY. Will start a new internship at Arri CSC in NJ.

If you have any question, feel free to contact me.

Sincerely,

Jose del C. Martinez
