

Hello

I am a costume designer who loves creating. I have experience creating period costumes, modern fashion and futuristic costumes. I have sketched, designed, cut, sewed and fitted all of these looks. I am also very familiar with onset demands for wardrobe, and can produce looks quickly and elegantly. I create amazing looks with any budget. I understand how clothing is made and how it fits a person shape which makes my styling impeccable. I have a set case and sewing case set available for shoots. My online portfolio has my film credits, examples of costumes I've created from scratch and my sketches as well as letters of recommendation. You won't regret hiring me on your team.

My online portfolio is [GabrielleSciabbarrasi.com](http://GabrielleSciabbarrasi.com)

Thank you for your time
