## MOTION PICTURE EDITORS GUILD

### PROFILE

Kody Davidson loves editing and everything that it encompasses. He admires the storytelling and human connection that editing brings into his life. The buttons and gadgets thrill him and make it hardly seem like work. Kody believes that creative editing must be backed by the technical expertise to support the project and is confident that he can bring both together into his work for the best results. Kody is passionate about post-production and will provide services that are creative, technically sound and are accurately delivered, in any format.
