EXPERIENCE

Freelance Film Worker

2016 - Present

Self-employed, Los Angeles, CA

- Work closely with the grip and electrical departments to create lighting set-ups for a shot.
- Build and maintain all equipment that supports cameras, including dollies, tracks, and jibs.
- Set up various pieces of lighting equipment safety rigs for lighting on set.
- Lay out electrical cables and power distribution at studios and locations.

Equipment Technician

2017 - 2019

American Film Institute, Los Angeles, CA

- Provided lighting and grip equipment for students' film projects.
- Assisted with student projects and events occurring on the AFI campus as well as ensure the safety of all participants.
- Maintained and organized the equipment rooms.
- Transported equipment to and from many vendors that provide light, camera, and grip equipment around the Los Angeles area.

Script Reader Intern

2016 – 2018

John Fogel Entertainment Group

- Read and provided coverage for feature-length scripts.
- Identified and broke down what improvement each script needed for potential production.
- Provided feedback that would encourage screenwriters to improve their scripts.
