- As an internship opportunity, I was able to learn the ins and outs of the production team on game day for the Trenton Thunder Baseball team. There were many obstacles to climb regarding Covid and the movement within the organization with a new team coming in to replace the Yankees minor league team. • This was all good experience in the field of TV Production to know how and why the cameras are setup to shoot the game properly. There are many in-stadium aspects like fan-cams and between innings activities that needed to be employed to entertain the fans. This was important to learn to grow in this field.

- I also took on some housekeeping duties. This is where I was asked to clean rooms when certain housekeepers called out or we did not have enough, and I needed to step in to get the job done. • This led to my promotion as part-time Housekeeping Supervisor where I had to organize and plan out the Housekeepers work while keeping in constant contact with the GM on special requests and any issues with regards to rooms and housekeepers, we have available.
- This position put me in a leadership position where I had to step in and give people orders such as houseman/maintenance/housekeepers/laundry to make sure rooms and guests are up to our standards. • On short notice, the previous Housekeeping Supervisor was fired and I became Full-time Housekeeping Supervisor.
