## **FINISHING SUPERVISOR**

PICTURE HEAD LLC

MARCH 2007 - JUNE 2008

During my long career in the entertainment industry, I have worked as a freelance editor/ assistant editor in features, television, and visual effects, in both film and digital editing. I am very experienced in post production, having worked in picture, sound, and visual effects.

In addition to my editorial work, I also have experience supervising the online broadcast-ready finishing of TV and video commercials and movie trailers for television, theaters, and VOD.

I am good at dealing with people of all temperaments, quick to assess a situation, and very adept at both planning ahead and immediate problem solving, all while maintaining a professional, easy-going attitude and without losing my composure.
